P.D.A College of Engineering , <i>B.E</i>	2011 – 2015

PROFESSIONAL EXPERIENCE

Quintype Technologies Pvt Ltd, *Front End Developer* Dec 2018 – present

1.5 years of Industry Experience as a front end developer with proficiency in HTML/CSS, JS, React JS and building responsive websites.

- Involved in developing the UI pages using HTML, CSS, Javascript, JSON.
- Diagnosed the cross browser issues and fix them across various front end technologies.
- Supported the QA team to ensure project features and applications were implemented according to the specification.
- Participated in day-to-day stand up meetings, conducted Kick-offs with the team before feature development.
- Coordinated with the managers and technical team members for changes and feedback.

PROJECTS

Worked for publishers like The Quint, AFAQs, SMEAdvisor, FPJ

- Resolved issues/tickets related to CSS (Grids, Flex, Carousel) and Javascript
- Implemented react components for the Quint homepage like Video Carousel, off-canvas Menu
- Fixed various bugs occurring in the staging and production environment

Quintype CMS - Bold Platform

- CSS Modules Project which involved converting the Quintype CMS (BOLD) components to CSS- Modules

Quintype Website

- Worked on total UI revamp of Quintype website using react hooks, styled-components and HTML/CSS
- Interacted with the design team to understand the design layout
- Build the static pages such as About, Product, Case Studies, Essence, Integration
- Handled the deployment of the site using a Quintype deployment tool Blacknight

Quintype Migrator (Validator)

- Migration Data Validator is a tool which checks for the intermediate files for JSON schema errors, File type encoding errors and mandatory errors and generates a report after the validation process is completed
 - Direct Text Input: Involved adding the single JSON
 - File Upload : Involved uploading a single txt.gz file
 - S3 Type : Fetch intermediate files from a public S3 bucket path and validate them for migration
- Designed the front end using the Quintype emphasis library
- Worked with express MVC framework for NodeJS to create the routes required for delivering the data to the front end.
- Tested the API using POSTMAN
